

To who it may concern

I hereby attest that Anja is a worldwide promising talent. Currently the most winning female athlete on her belt and weight category in Scandinavia for 2015, and defiantly under the top 5 athletes on her category worldwide , winning almost everything she competed this year. For 2016 we will have a busy calendar including all the major competitions two Europeans and the worlds and I am certain that she will do a great work to say the least. She is an exemple of commitment handwork and determination and I consider her one of the most promising athlete in Norway.
