**Emne:** Hip-Hop Project **Vedlegg:** YOUTH HIP.doc

Dear Mad. Ose,

Here are the sites and a simplified copy of the project. I call it Hip-Hop Blaster, as it will blast off all the bad rappers from the scene. This project will show how to rap in the best way, not just talking as most, even some stars do. Everything in the sites is what they gonna do with me.

Well, the plan is to tour or go from club to club in the whole region to initiate the youth into this culture. It will consist of a Jam session, where they will be on a stage to perform.

Just have a look with your colleges and let me know so that I can design full detailed copy for you.

Please neglect the parts which has nothing with you in the project files. The project will consist of Music, Video, Graphic Design, Dance for Kids, total AUDIOVISUAL PROJECT.
