CV: Please check the attachment:

'manuel portioli CV February 2015'

Eige_verksemd: I am mainly involved in painting. Lately my main activity has been to re-discuss my entire production, to find ways to challenge it and possibly to develop it. I want to expand my own awareness upon my work, to stretch the boundaries of the canvas by trying something unusual to me and not destined to be part of an exhibition or a series (please check the attachment 'studio').

Previously I've built two very distinct series of works: the white series and 404 days of rain (please check the attachment 'portfolio'). I often build my work in series.

Planar_for_stipendet: The grant will be mainly used to pay the rent of the studio. Other uses for it are to buy materials such as paint, frames, shipping crates, brushes, canvas, etc.

The grant will also contribute to cover the expenses for my upcoming exhibitions. Among them: a group show at Nord-Trøndelag kunstmuseet, a group show at my representing gallery in Torino and a solo show at Oseana in Os.

Presentasjon_dokumentasjon: Please check the attachments: 'portfolio' and 'studio'.
