

Innspill til revisjon av North Sea Region 2020.

## Managing Maritime Space

Maritime Spatial Planning (sett karakter): 5

Exploitation of marine resources (sett karakter): 6

North Sea Maritime Stakeholder Forum (sett karakter): 5

Begrunnelse:

Are there other focus areas your region prioritizes which should be included under Managing Maritime Space? (åpent spørsmål):

Procurement principles when public bodies shall order new ferries – how to overcome very rigid EU-regulations which sometimes seem to be too strict, so that they make innovative investments in new technology very difficult.

## Increasing Accessibility and Clean Transport

Promote development of multimodal transport corridors and facilitate modal shift from road to sea (sett karakter):5

Optimizing performance of multimodal logistic chains (sett karakter): 5

Clean transport (sett karakter): 6

Clean shipping (sett karakter): 6

Begrunnelse:

Are there other focus areas your region prioritizes which should be included under Accessibility and Clean transport? (åpent spørsmål):

Procurement principles – how can they enhance the implementation of new clean tech in public transportation.

## Tackling Climate Change

Climate change adaptation (sett karakter): 6

Lowcarbon technologies and energy efficiency/green technologies (sett karakter): 6

Renewable energy and North Sea energy grid (sett karakter): 6

Begrunnelse:

Are there other focus areas your region prioritizes which should be included under Tackling Climate Change? (åpent spørsmål):

## Attractive and Sustainable Communities

Competitiveness of sectors and enterprises (maritime and culture/tourism) (sett karakter):

Demographic change (sett karakter):

Development of skills and employability (sett karakter):

Begrunnelse:

Are there other focus areas your region prioritizes which should be included under Attractive and Sustainable Communities? (åpent spørsmål)

## Best practices and other input

Do you have best practice examples from your region which could demonstrate solutions under one or more of the strategic priority areas? (åpent spørsmål):

Clean transport: Infrastructure for electrical vehicles.

Public authorities (county council) as the big buyer, implementing environmental criteria.

The horizontal priority includes innovation, excellence and sustainability.

Can you demonstrate how this could be better integrated in the other four strategic priority areas? (åpent spørsmål):

More pilot projects, for example on clean road transportation of goods.

Is there any other input you would like to give regarding revision of the North Sea Region 2020? (åpent spørsmål):
