

Brief presentation of initiators Cameron MacLeod and Magnhild Øen Nordahl

The Centralize Bergen project is initiated by Cameron MacLeod. He is working on the project together with Magnhild Øen Nordahl who is in charge of the workshop in its developmental stages.

Cameron MacLeod is an artist and has been living in Bergen since 2011. He is currently the director of Platform Stockholm, one of the largest studio collectives in Scandinavia, which he started up after finishing his studies in Stockholm. He is also the leader of Flaggfabrikken Senter for Samtidskunst, one of Bergen's oldest studio collectives. The recent years Cameron has been developing digital software for the arts, for instance Curatron and Art Engine which are both described in attachments to the application.

Magnhild Øen Nordahl is an artist based in Bergen and has lived here for the past 8 years. Currently she has a studio at Kunstnerverksteder CS55, where she is also a board member. Magnhild also has positions in Bildende Kunstneres Forening Hordaland (BKFH, vara i styre) and is part of the nomination committee in Unge Kunstneres Samfund (UKS). Magnhild works mainly with sculpture, and her artistic practice makes use of a lot of large machinery. After finishing her education in 2014 she has been seeking to improve the production possibilities for artists in the region. For more information on initiators see attached CVs.

Cameron MacLeod - cameronmacleod.org

Born Truro, Nova Scotia, Canada 1975

Currently lives in Bergen Norway
