Kommentarar til gjennomføringa	I would like to use my time to continue developing activities aimed to connect the local art community to the general public. My time will be dedicated to networking, marketing, mediating and producing sales exhibitions and other activities with a broader audience in mind. I have the support from the local art community but I need time and economical means to fully dedicate myself to this project.

Om prosjektet

ART+FOLK applies for:
Home & Studio visits blog where a member of the art community will be monthly introduced in the studio/space and at home and a programme of 4 annual exhibitions exhibitions with aim to sell art from local artists.

Målsetting med prosjektet

The aim with these projects is to stimulate interest in the public to visit, approach and invest in the local art community also give more opportunities to artists to become more self sufficient through their own production.

Programområde

Kva programområde fell prosjektet inn under? C: Kunstløft - kunstnarleg nyskaping

Grunngjeving The ART + FOLK is a platform that aims to make our artist community more accessible to the general public. It is thought as an outreach project and my intention is to become a resource to both the artistic community and to the people that would like to get closer or are looking to buy art, but find the art scene either intimidating or difficult to navigate.

ART + FOLK will establish a series of activities aimed for the general public with aim to spark an interest in visiting and getting to know the local art offer, but also stimulate the local art market giving a chance to artists to become more self-sufficient.
