Dear Paulien

I will look more into the minutes and come back to you.

For now, I pass on this link, as I find it interesting myself

<http://www.trackmyelectricity.com/learn-more/electricity-disclosure-eu/>

Maybe this can be used for the NSC in some way. Maybe they can deliver something like what Jimmy Gray proposed to create. Or maybe you know of other agencies that deliver something even closer to NSC's needs.

Sincerely,

Karen
